Aetna Medicare is a PDP, HMO, PPO plan with a Medicare contract. Our SNPs also have contracts with State Medicaid programs. Enrollment in our plans depends on contract renewal.

This information is not a complete description of benefits. Contact the plan for more information. Limitations, copayments, and restrictions may apply. Formulary, pharmacy network, and/or co-payments/co-insurance may change on January 1 of each year.

The formulary and/or pharmacy network may change at any time. You will receive notice when necessary. Members who get “extra help” are not required to fill prescriptions at preferred network pharmacies in order to get Low Income Subsidy (LIS) copays.

See Evidence of Coverage for a complete description of plan benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by service area.

Mail-order Pharmacy

For mail order, you can get prescription drugs shipped to your home through our preferred mail-order pharmacy, which is called Aetna Rx Home Delivery. Typically, mail-order drugs arrive within 7 to 14 days. You can call

1-800-282-5366 (TTY: 711) 24 hours a day, 7 days a week, if you do not receive your mail-order drugs within this timeframe.

Members may have the option to sign up for automated mail-order delivery.

This information is available for free in other languages. Please call our customer service number at **1-800-282-5366 (TTY: 711)**, 24 hours a day, 7 days a week.

Esta información está disponible en otros idiomas de manera gratuita. Comuníquese con Servicios al Cliente al **1-800-282-5366 (TTY: 711)**. Horario de atención: las 24 horas del día, 7 días de la semana.

本資訊也有其他語言的免費版本可供選擇。請致電**1-800-282-5366 (聽障專線: 711)**於會員服務部聯絡，辦公時間為每週7天、每天24小時。

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us”, or “our,” it means Aetna Medicare. When it refers to “plan” or “our plan,” it means Aetna.

This document includes a list of the drugs (formulary) for our plan which is current as of 10/01/2016. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2018, and from time to time during the year.

What is the Aetna Medicare Comprehensive Formulary?

A formulary is a list of covered drugs selected by our plan in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. We will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at our network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the Formulary (drug list) change?

Generally, if you are taking a drug on our 2017 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2017 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of 10/01/2016. To get updated information about the drugs covered by our plan, please contact us. Our contact information appears on the front and back cover pages.

In the event of any CMS-approved, mid-year non-maintenance formulary changes, the formularies will be updated monthly and posted on our website.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 10. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "Cardiovascular Agents". If you know what your drug is used for, look for the category name in the list that begins on page 10. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 81. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

Our plan covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Our plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from us before you fill your prescriptions. If you don't get approval, we may not cover the drug.
- **Quantity Limits:** For certain drugs, our plan limits the amount of the drug that we will cover. For example, our plan provides 30 tablets per 30 days per prescription for *candesartan*. This may be in addition to a standard one-month or three-month supply.

- **Step Therapy:** In some cases, our plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 10. You can also get more information about the restrictions applied to specific covered drugs by visiting our Web site. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask us to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How do I request an exception to the Aetna Medicare formulary?" on page 6 for information about how to request an exception.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that our plan does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by our plan. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by our plan.
- You can ask us to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Aetna Medicare Formulary?

You can ask us to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, our plan limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, we will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tiering or utilization restriction exception. **When you request a formulary, tiering or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will allow you to refill your prescription until we have provided you with at least 91 and up to a 98-day transition supply, consistent with dispensing increment, (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

If you experience a change in your setting of care (such as being discharged or admitted to a long term care facility), your physician or pharmacy can request a one-time prescription override. This one-time override will provide you with temporary coverage (up to a 30-day supply) for the applicable drug(s).

Aetna Medicare Formulary

The comprehensive formulary that begins on page 10 provides coverage information about the drugs covered by our plan. If you have trouble finding your drug in the list, turn to the Index that begins on page 81.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., LEVEMIR) and generic drugs are listed in lowercase italics (e.g., candesartan).

The information in the Requirements/Limits column tells you if our plan has any special requirements for coverage of your drug. The following abbreviations are used:

QL	Quantity Limits
PA	Prior Authorization
ST	Step Therapy
LA	Limited Access
MO	Mail-order Delivery
B/D	Part B vs. D Prior Authorization
GC	Gap Coverage

QL: Quantity Limits. For certain drugs, our plan limits the amount of the drug that we will cover. For example, our plan provides 30 tablets per 30 days per prescription for *candesartan*.

PA: Prior Authorization. Our plan requires you or your provider to get prior authorization for certain drugs. This means that you will need to get approval from us before you fill your prescriptions. If you don't get approval, we may not cover the drug.

ST: Step Therapy. In some cases, our plan requires you to first try certain drugs to treat your medical condition, before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

LA: Limited Access. These prescriptions may be available only at certain pharmacies. For more Information, consult your Pharmacy Directory or call Aetna Member Services at **1-800-282-5366 (TTY: 711)**, 24 hours a day, 7 days a week.

MO: Mail Order. For certain kinds of drugs, you can use Aetna Rx Home Delivery services.

Generally, the drugs available through mail order are drugs that you take on a regular basis, for a chronic or long-term medical condition. The drugs available through our plan's mail-order service are marked as "mail-order" drugs in our Drug List or MO. For more information, consult your Pharmacy Directory or call Aetna Member Services at **1-800-282-5366 (TTY: 711)**, 24 hours a day, 7 days a week.

B/D: Part B versus Part D. This prescription drug has a Part B versus Part D administrative prior authorization requirement. This drug may be covered under Medicare Part B or D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.

GC: Gap Coverage. We provide additional coverage of this prescription drug in the coverage gap. Please refer to our Evidence of Coverage for more information about this coverage.

Drug tier copay levels

This 2017 comprehensive formulary is a listing of brand-name and generic drugs. Aetna Medicare's 2017 formulary covers most drugs identified by Medicare as Part D drugs, and your copay may differ depending upon the tier at which the drug resides.

The copay tiers for covered prescription medications are listed below. Copay amounts and coinsurance percentages for each tier vary by Aetna Medicare plan. Consult your plan's Summary of Benefits or Evidence of Coverage for your applicable copays and coinsurance amounts.

Copay tier	Type of drug
Tier 1	Preferred Generic
Tier 2	Generic
Tier 3	Preferred Brand
Tier 4	Non-Preferred Drug
Tier 5	Specialty

Our plan combines generic and brand drugs on multiple tiers. Refer to the drug list to determine the tier of coverage for each drug you take.
