

# President Trump's Part D Senior Savings Model

## Non-Model Part D Plan

## Model Part D Plan Average Savings of \$446 per year (66%) on Insulin Costs

All estimates and averages are based on beneficiary out-of-pocket costs from 2018 CMS Prescription Drug Event data, inclusive of the majority of rapid-, short-, intermediate-, and long-acting insulins. Costs are calculated only for non-Low-Income Subsidy (non-LIS) beneficiaries in enhanced alternative standalone prescription drug plans and Medicare Advantage plans that offer prescription drug coverage. Individual savings may vary.
