Schedule of Commissions
Effective March 15, 2023

This Schedule of Commissions (“Schedule”) becomes a part of the Contract between you and one or more of the above-named Companies (“the Company”) and is subject to all its provisions. You must be properly licensed and appointed (in the policy issue state) at the time of the policy sale to receive commissions for such sale. Commissions under this Schedule shall be vested in accordance with the terms of your Contract. Commissions will be calculated using the percentage rate shown in the schedule below, multiplied by the issued premium amount. Commissions are based on the policyholder’s age on the policy effective date; except for an Open Enrollment Medicare Supplement policy issued to a Medicare beneficiary turning age 65 after the policy effective date will use the age 65 rate. You confirm that the first lien previously agreed to and granted by you to the Company applies to this schedule on all compensation payable to you as security for the payment of any debts due or to become due to Company from you and the hierarchy recruited by or assigned to you. Commissions are reduced by any commissions due a sub-producing General Agent, Agent, or by any debt owed the Company or its affiliates.

All commissions payable are subject to adjustment due to limitations and/or restrictions imposed by any applicable laws or regulations. Unless stated otherwise, commissions are not paid on premium rate increases, policy or application fees, if any, or on premiums associated with the Medicare Part B deductible on any Medicare Supplement plan issued by the Company. There will be a 100% chargeback if a policy is rescinded and premiums returned. If a policy is changed for any reason (such as, but not limited to, a change in benefits or coverage to include policy riders, or in the number of covered lives) which results in a change in premiums, commissions will be adjusted based on the amount of the resulting premium and will be paid based on the duration period of the existing policy. Commissions on internal replacements, conversions, or exchanges of an existing policy to a similar policy or coverage type, offered by the Company, or its affiliates, or a Genworth Financial affiliated Company (when such plans are administered by an Aetna affiliated company) are subject to the Company’s replacement rules.

This Schedule will apply to qualifying applications dated on or after the Effective Date shown below. In consideration of receiving the GA override you agree to produce no less than five hundred thousand dollars of new annualized premium each twelve-month period starting on July 22, 2019. Failure to maintain this level of production will result in the loss of your GA override commission. The Company has the unilateral right to amend this Schedule upon notification of the amendment and its effective date. At the Company’s discretion, it may provide notice of such amendment through mail, email, posting to the Company website or such other reasonable means of communication. No such amendment shall affect commissions on applications taken prior to the effective date of such amendment unless required by law.

If no Effective Date is shown, the Effective Date will be the same as the date shown on the same Schedule on file in the Home Office.
